Toilet - # of flushes							
Washing machine - # of loads							
Shower - # of minutes							
Meals - preparation							
# of Baths							
Dishwashing - # of loads by machine							
Landscape/outdoor watering - # of hours							
Car washing - # of hours							
Miscellaneous							

KEY

Toilet = 4 gallons per flush

Dishwashing (machine) = 10 gallons per load

Washing machine = 30 gallons per load Outdoor watering = 60 gallons per hour

Shower = 5 gallons per minute

Car washing = 40 gallons per wash

Bath = 35 gallons per bath

Newport News Waterworks residential customers (families, couples, singles) account for over half (56%) of the total treated water consumed and billed - more than business and industry. The average Waterworks customer uses about 78 gallons of water per day, or 312 gallons of water per day for a family of four. How does your chart above compare to these figures?
